JAPLE A. LIGAYA

San Miguel, Bulacan | 09569639324 | ligayajaple@gmail.com | LinkedIn: japle-ligaya | GitHub: japsTrynHard

Fourth-year BS Information Technology student specializing in Mobile and Web Applications seeking a software development internship. Experienced in building academic web and mobile systems using Flutter, React.js, Firebase, and Supabase, with hands-on work in application workflows, UI/UX, authentication, and API integration. Uses AI-assisted development tools to support implementation, debugging, and learning.

EDUCATION

National University Baliwag **2023 - Present**
Bachelor of Science in Information Technology with Specialization in Mobile and Web Applications

Vedasto R. Santiago High School **2021 - 2023**
Senior High School
Accountancy, Business and Management (ABM)

SKILLS

Web Development:
HTML5, CSS3, JavaScript, React.js, Vite, Bootstrap, Tailwind CSS (basic), TypeScript (working knowledge)

Mobile Development:
Flutter, Dart, React Native (Expo), Kotlin, Android Studio

Programming Languages:
Java, PHP, Python

Backend & APIs:
PHP, REST APIs, Firebase SDK, Supabase SDK, Firebase Authentication

Databases & Cloud:
SQL, MySQL, PostgreSQL (Supabase), Firebase, Cloudinary

Tools & Concepts:
Git, GitHub, Visual Studio Code, Vercel, Codemagic, OpenAI Codex, responsive UI, debugging

- AI-assisted feature implementation and debugging for web and mobile applications
- UI/UX improvements, responsive interface design, and application workflow development
- Collaborative project development, communication, and problem-solving
- Adaptability, attention to detail, and willingness to learn new technologies

PROJECTS

CarmeLink: Dormitory Management System

Web & Mobile Application Developer / UI/UX Contributor (Team Project)

- Web and mobile system for tenants, rooms, payments, maintenance, visitor records, and geofencing-based curfew monitoring.
- Implemented functional features, application workflows, and supporting logic; improved UI/UX, navigation, and responsive layouts.

PromptWise: AI Literacy and Learning Application

Full-Stack Developer (Academic Project)

- AI learning app with prompting lessons, adaptive quizzes, and misinformation verification activities.
- Built frontend and backend features, UI/UX, authentication, Supabase integration, and AI functionality.

AutoSched AI: Intelligent Academic Scheduling System

Full-Stack Developer (Academic Project)

- Academic productivity app for class schedules, tasks, study sessions, and OCR-based timetable extraction.
- Developed Flutter interfaces, core scheduling workflows, Firebase integration, and AI/OCR features.

Bayanihan Link: Community Assistance Platform

Web Developer (Academic Project)

- Community web platform for jobs, assistance requests, emergency alerts, lost-and-found posts, and messaging.
- Built React.js interfaces, Firebase-backed community modules, authentication, and admin features.

RodelConnect: Catering Reservation System

Frontend Developer / UI/UX Contributor (Team Project)

- Catering booking system for customized event packages, reservations, payments, inventory, and administration.
- Contributed frontend components, UI/UX design, usability improvements, and selected implementation tasks.

Map Explorer PH: Educational Geography Game

Frontend / UI/UX and Game Interface Contributor (Team Project)

- Mobile educational game featuring Philippine map puzzles, regional trivia, quizzes, and exploration.
- Collaborated on interactive gameplay screens, visual presentation, and supporting development work.

ACADEMIC RECOGNITION

Dean's Lister - First Year, Terms 1-3

National University Baliwag
